Marlboro College PLUS Processing Form

A Federal PLUS loan is one way a parent can meet the family contribution for your student's education. Before considering this loan we recommend that the student take full advantage of any Stafford loans available.

In addition to completing this form for Marlboro College, the parent borrower must have completed an application (available June 1st) with the Department of Education to determine if the loan was approved. If approved, you will complete a Master Promissory Note with the Department of Education before any loan disbursements can be released to the college on the parent and student's behalf.
